Review Process and Notification:

Applications are accepted year-round and reviewed by the Center's Internal Executive Committee on a monthly basis. Full or Associate membership status is granted according to the criteria outlined below. Full and Associate members are equally entitled to membership benefits.

Membership Categories:

Full membership requires active participation in funded research focusing on the liver or a biological process directly relevant to the liver. Full members must have PI status on a liver or otherwise related research grant. Recipients of career development awards ("K" or equivalent) are eligible for Full membership.

Associate membership requires active participation in liver-related research but does not include a prerequisite for research funding relevant to the liver. Recipients of Liver Center Pilot/Feasibility awards are automatically granted Associate membership for three years.
