

# Endogenous and Exogenous Determinants of Fatty Liver Disease

January 20, 2017

9:00 am to 2:30 pm

Aldea Center

Parnassus Campus

**RSVP required to reserve lunch**

[Sandhya.AdiyodiVeetil@ucsf.edu](mailto:Sandhya.AdiyodiVeetil@ucsf.edu)

9:00 AM **Jacquelyn Maher, MD | Medicine**

*Welcome & introduction*

9:10 AM **Holly Ingraham, PhD | Cellular and Molecular Pharmacology**

*Phospholipids, lipid droplet size and fatty liver*

9:40 AM **Allison Xu, PhD | Diabetes Center**

*Neural regulation of hepatic lipid metabolism and metabolic efficiency*

## Coffee Break 10:10 AM - 10:30 AM

10:30 AM **Monika Sarkar, MD | Medicine**

*The role of "male" sex hormones in women with NAFLD*

11:00 AM **Aras Mattis, MD, PhD | Pathology**

*Modeling fatty liver disease using iPSC-heps*

11:30 AM **Jacquelyn Maher, MD | Medicine**

*Dietary macronutrients in the control of hepatic steatosis*

## Lunch Break 12:00 PM - 1:00 PM

1:00 PM **Shingo Kajimura, PhD | Diabetes Center**

*White, brown, beige fat and the adipose-liver axis*

1:30 PM **Suneil Koliwad, MD | Medicine and Diabetes Center**

*Meta-inflammation in obesity and fatty liver disease*

2:00 PM **Andreas Stahl, PhD | Nutritional Sciences & Toxicology, UC Berkeley**

*Fatty acid transport and intrahepatic cholangiocarcinoma*
