

## UCSF LIVER CENTER MINI-SYMPOSIUM

### *Metabolic Pathways in Hepatocarcinogenesis*

Friday, September 22, 2017

9am-3:30pm | Mission Bay, Mission Hall 1400

Organizer: Xin Chen, PhD

Registration Deadline Sept 20 | Email [sandhya.adiyodiveetil@ucsf.edu](mailto:sandhya.adiyodiveetil@ucsf.edu) to RSVP

- 9:00 AM **Xin Chen, PhD | UCSF**  
*Welcome & introduction*
- 9:10 AM **Daniel Nomura, PhD | UC Berkeley**  
*Using chemoproteomic platforms to map druggable hotspots in human disease*
- 10:00 AM **Dean Felsher, MD, PhD | Stanford University**  
*Defining novel metabolic vulnerabilities in hepatocellular carcinoma*

#### Coffee Break 10:50 AM - 11:05 AM

- 11:10 AM **Gen-Sheng Feng, PhD | UCSD**  
*Dissecting the anti-oncogenic effects of classical oncoproteins in hepatocarcinogenesis*

#### Lunch Break 12:00 PM - 12:55 PM

- 1:00 PM **Andrei Goga, MD, PhD | UCSF**  
*Oncogene regulation of metabolism in liver cancer*
- 1:50 PM **Pavithra Viswanath, PhD | UCSF**  
*Off the beaten track: the unusual nature of metabolic reprogramming in mutant IDH1 glioma cells*
- 2:40 PM **Guisheng Song, PhD | University of Minnesota**  
*MicroRNA-206 links hepatosteatosis to hepatocellular carcinoma*
